- > Get to know the Board
- > CE Module Information
- > Embracing our Professionalism

Staying Connected Through PTSA E-Chat

You've asked for a way to talk about pharmacy technician regulation with other technicians and how it is affecting you individually. PTSA E-Chat is the answer! PTSA E-Chat is a group email list that offers the opportunity for email discussion with other members. PTSA E-Chat will provide members with a way to network with each other and support each other through the regulation process by offering opinions, comments or personal situations that relate to regulation.

The PTSA communications team manages the E-Chat mailing list. If you have provided PTSA with an email address, you will receive an invitation to join the mailing list group directly via email.

For more information, and to read the PTSA E-chat Guidelines please visit

Regulation Update

PEBC Exams

The next PEBC Evaluating Exam is scheduled for April 18, 2009. The application deadline is January 29, 2010. For more information, visit the Pharmacy Examining Board of Canada's Website

www.pebc.ca

Bridging Programs

Pharmacology will be the first bridging program module available to technicians in Alberta. It is expected to be available through various Alberta Colleges in January or February 2010. Watch for enrolment information coming soon.
